

FABRICATIONS • WELDMENTS • CNC MACHINING • PLATE PROCESSING • PAINTING

UNDER ONE ROOF.

Our mission at **FabCorp, Inc.** is to provide our customers with the highest quality parts and finished assemblies at a competitive price. We are able to keep our prices low by offering our customers a complete turnkey process—all under one roof!

WELDING (48) MIG Stations, (14) TIG Stations, (8) Robotic Welders and (2) Sub Arc Welders from light sheet metal weldments to heavy plate components.

FABRICATION Fabrication from sheet metal housings to heavy plate weldments or fabricated / machined assemblies to total turnkey projects.

CNC MACHINING From single components to complex machined-tested assemblies, or complicated multi-axis parts to machined forgings, castings, weldments, CNC turning and CNC milling.

PLATE PROCESSING From Laser cut sheet to flame cut plate or waterjet stainless to plasma cut aluminum, stainless, alloy or carbon.

COATING Total wet coat facility to complete powder coating for Oil and Gas / Military / Commercial / Aviation applications.
