

Hammonds®

ADDITIVE INJECTION SYSTEMS for...

WORK BOATS

KEEP WORKBOATS WORKING

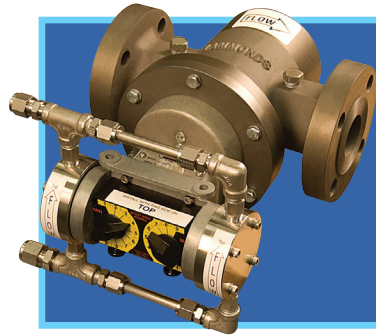

Hammonds Injection Systems deliver additive-enhanced fuel that helps keep workboats in service with less repair and downtime and less fuel consumption.

Model 150

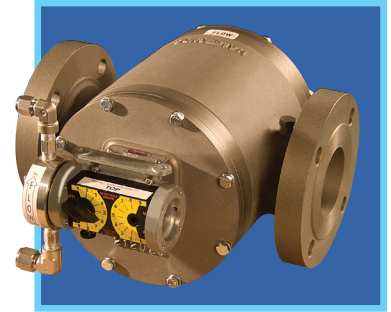

Our smallest injector allows for installation in a small space. Injects single or dual additives at low flow rates

Min. Flow Rate 20 GPM

Max. Flow Rate 200 GPM

Model 150

Model 600

Model 600

Our most popular unit offers single or multiple additive injection.

Min. Flow Rate 20 GPM

Max. Flow Rate 200 GPM

Model 4T

(Turbine) Single or multiple additive injection at flow rates typically found at fuel delivery terminals. Fluid-powered Turbine Injection for an even and accurate blend. No product meters required.

Min. Flow Rate 200 GPM

Max. Flow Rate 750 GPM

Model 4T
